Can Brent hold off until Monday after SMT? Might be worth it to touch base on this one at smt.

I will likely be out in Nevada on the 20th with the anaconda team.

**Subject:** Rep. Mark Amodei's Visit to Regional Office on Wednesday, September 20th - Updates from Superfund, Water, and Air

All –

I will be confirming the meeting with the Congressman's scheduler on Monday once Alexis is able to confirm her availability, but as of now, it is set for **Wednesday, September 20<sup>th</sup> at 10:00am.** .

I have an update from Superfund (attached) on our work at Eureka Smelters and know that Superfund is working on some updated materials for Anaconda/Yerington and an update for our Brownfields Program in Nevada. I am also awaiting an update from Jack Landy and Sam Ziegler on our work at Lake Tahoe and have reached out to our Air Division on any materials they may wish to include.

**It would be ideal if I could receive any and all remaining updates by mid-day on Monday if possible so I can finalize a folder of materials.**

Thanks in advance for everyone's help in pulling these updates together and sorry for the short turn-around request.

Brent Maier
